

## **Bullhorn announces an international partnership with PIXID Group**

**We are proud to announce a significant new partnership between Bullhorn and Pixid Group. With our combined expertise and increased service offering for our valued clients, the partnership reinforces the position of both companies in key global recruitment markets.**

The recruitment solutions ecosystem has evolved, with innovative start-ups challenging larger companies. Bullhorn has actively sought partnerships with those offering the most innovative solutions. This has not only brought innovation into the Bullhorn product range and marketplace, it has also enabled Bullhorn customers to connect with other market-leading recruitment and HR systems.

PIXID VMS is the first global mid-market, fast to deploy, pay-as-you-go Vendor Management System (VMS) to implement a full two-way integration with Bullhorn. This is of major benefit for temporary staffing agencies, MSPs and Master Vendors, especially Bullhorn users, who are now able to connect these two very powerful and complementary tools, giving them a competitive advantage by greatly expanding their abilities to provide rapid and reliable contingent staffing services to their clients. Pixid is incorporating Bullhorn integration costs for PIXID VMS within its pay-as-you-go pricing model.

The PIXID VMS solution enables temporary staffing agencies to streamline their contingent staffing processes and seamlessly connect with their end clients and workers. Thanks to the new integration between Bullhorn and Pixid VMS, recruitment suppliers will be able to receive requests, identify, select and supply suitable candidates for contingent work assignments directly via the Bullhorn system, within seconds.

Group President of PIXID Group, Etienne Colella says:

“PIXID Group has adopted a partnership strategy in order to connect the very best recruitment and staffing industry players to our state-of-the-art solutions. We are currently the only mid-market VMS to offer full two-way integration with Bullhorn, creating a competitive advantage and significant new business opportunity for both parties. We look forward to growing further opportunities with Bullhorn as our markets in Europe and around the world expand.”

Peter Linas, CPO and EVP of Corporate Development at Bullhorn says:

“We are delighted that Pixid Group has chosen to partner with Bullhorn. By combining PIXID VMS with our world-leading technology, Bullhorn users are now able to connect these two very powerful and complementary tools, giving them a competitive advantage by greatly expanding their abilities to provide rapid and reliable contingent staffing services to their clients via the Bullhorn platform.”
